

# White Label Setup Requirements for Partners

To ensure a smooth setup of your white-labeled EverythingCloud platform, please provide the following details:

## 1. Platform & Branding

- **Custom URL** (Example: console.yourdomain.com)
- **Product Name** (How it should appear in communications. Example: “Thank you for registering with [Product Name]”)
- **Logo & Favicon**
- **Brand Kit** (Primary & Secondary Colors, Font Guidelines, etc)

## 2. Communication & Support

- **Notification Email Address** (Example: no-reply@yourdomain.com)
- **Support Email Address** (If EverythingCloud is handling Level 1 support, this will be forwarded to us)
- **Shared Mailbox** (If EverythingCloud team needs to be invited to meetings. Example: finops@yourdomain.com)

## 3. Team & Access Control

- **Support Escalation Contact** (Name, Email, Phone if applicable)
- **List of Admin Users** (Names & Emails of individuals who will have full administrative access to manage accounts, add companies, etc.)

## 4. Payment & Billing *(If Automated Payments Are Required)*

- **Stripe API Keys & Product ID** for billing automation

Providing these details will help us launch your white-labeled platform efficiently.

If you have any questions, let us know!
